

Better, Faster, for Less.

HENCO 1030 TEAK CLEAN, a **one-step cleaning process**, offers exceptional performance along with cost and time saving advantages compared to any product formulated with citric, phosphoric, glycolic or sulfamic acid.

- Free of phosphoric acid
- 3 times more effective than phosphoric acid
- 4 to 6 times more effective than citric and glycolic acid
- Non corrosive to skin
- Excellent environmental and aquatic profile
- Readily Biodegradable
- No VOC
- MARPOL Compliant

Market and End Uses

- General wood cleaner
- Teak deck
- Teak furniture
- Wood furniture

HENCO 1030 TEAK CLEANER can be applied with brushes, pressurized or manual (trigger) hand sprayers. ALWAYS rinse or flush cleaning mechanism with fresh water.

Suggested Dilution:

HENCO 1030 TEAK CLEAN can be used in concentrated or diluted form, depending on the need for maintenance and cleaning. Normally, after a first time use at 100% (if needed) high dilution ratios are adequate: 20% - 50% for proper maintenance.
